# SPECIALTY FURNITURE

Today's health care environment is becoming more complex and demanding. Specialty Furniture's collection of furniture has been specifically designed for this environment and combines superior design and functionality with quality construction and durability. All the pieces in our collection have been carefully selected and tested to meet our exacting standards.

"Committed to Service" is Specialty Furniture's promise to our customer. Our service begins at the very beginning of your furniture purchase with helpful and educated representatives who can assist you in selection and design and follows through to the very end with friendly and on time delivery and installation. Specialty Furniture knows that without a true commitment to service we would not be able to deliver a reliable and stress free experience to our customer.

## Beds

### PRIMAREST® ADVANCED LOW HEIGHT BED

The PrimaRest® Advanced Low Height electric bed is the Best-in-Class bed for the Long Term Care market with built-in length and width extension systems making it flexible in all circumstances. The length adjusts to 80", 84", or 88" and the width can be adjusted to 35", 39", or 42". All width and length adjustments are tool-less, allowing for quick and easy adjustments. The PrimaRest® Advanced is a roll at any height bed equipped with a central locking system with easy access to the lock and unlock pedals, even at the lowest height. The PrimaRest® Advanced bed features an easy to disinfect pan deck with a travel range of 7" to 30" high and includes Trendelenburg/Reverse Trendelenburg and Comfort Chair positioning. Special head section composite non-metal assist rails use a quick connect, tool-less installation/removal to easily adapt the bed whether rails are required or not. Standard features include Trendelenburg / Reverse Trendelenburg, Motion Sensing Underbed Lighting, Footboard Staff Control Panel w/Lockout, 1 USB-A and 1 USB-C plug for Resident Electronics, Baseboard Wall Bumper, IV Pole Holder, Hand Control with Rail / Headboard Clip, Auto Retracting Head Section, and Wheel Drafting Hi/Lo Movement. 600 lb weight capacity, 4 year warranty on electronics and 15 years on the frame.

## PRIMAREST BARIATRIC LOW HEIGHT BED

The PrimaRest Bariatric LTC Low Height electric bed has an easy to clean pan deck platform with built-in length and width extensions to extend the bed to 42" or 54" in width and 84" or 88" in length, making it flexible in all care settings. All width and length adjustments are tool-less, allowing for quick and easy adjustments. The robust bed structure can support up to 1000 lbs. Residents in need of a Bariatric bed have a higher risk of developing pressure ulcers. With this in mind the PrimaRest Bariatric bed features an innovative auto-regression system to reduce this risk, reducing abdominal strain when profiling the bed. The PrimaRest Bariatric is a roll at any height bed equipped with a central locking system with easy access to the lock and unlock pedals, even at the lowest height. The PrimaRest Bariatric bed features a travel range of 9.6" to 27.5" high and includes Trendelenburg/Reverse Trendelenburg, Comfort Chair positioning, and Integrated Battery Back-Up System. Special optional head section composite non-metal head and foot section rails use a quick connect, tool-less installation/removal to easily adapt the bed whether rails are required or not.

### STANDARD FEATURES

- FOOTBOARD CONTROL PANEL w/LOCKOUTS
- UNDERBED LIGHTING
- TRENDLENBURG/REVERSE TRENDLENBURG

## Mattresses

### PRIMAREST® ADVANTAGE FOAM THERAPEUTIC SUPPORT SURFACE

The PrimaRest® Advantage features a sculpted top layer with independent load-bearing cells that help reduce shear while creating airflow, for outstanding pressure redistribution, support and comfort. The 3 layer high density foam design provides 3 anatomic zones in the top layer and the super-soft sloped heel section helps to reduce pressure on the heels. The easy to clean premium all-way stretch cover comes standard optimum comfort & pressure redistribution. Firm foam perimeter prevents collapsing of the sidewalls to ease egress and ingress and reduce entrapment. Designed for high risk / Stage 1 & 2. Fire sleeve over the foam core to meet the strictest of Canada/USA fire and flame retardancy standards.

#### FEATURES

**Heel Zone**  
Softer foam material and sloping heel zone reduces pressure

**Fire Sleeve**  
Comes standard with a Fire Sleeve over the foam core

**Firm Perimeter**  
Firmer foam outer rim supports transfers and entrapment compliance

## PRIMA-GEL DELUXE GEL THERAPEUTIC SURFACE

The Prima-Gel Deluxe combines the comfort and pressure reduction of a foam therapeutic surface with the pressure relief and temperature regulation of gel. In this unique process our therapeutic foam core is covered with a 3/4" pillow top gel honeycomb topper in the torso and foot section to deliver unparalleled comfort, temperature control and wound prevention. The gel topper distributes the pressure more evenly over these regions resulting in better pressure interfaces. The honeycomb design of the gel allows for better temperature control around the sensitive pressure areas of the body. The Prima-Gel Deluxe has an incorporated high density foam perimeter to aid in transfers as well as to prevent bed entrapment. The special Recovery-5® Stretch cover provides fluid protection as well as a softer feel and stretch compared to regular nylon covers.

- 3/4" pillow top gel honeycomb comfort topper in torso and foot sections regulates temperature reducing perspiration and provides immersion for pressure reduction as well as increased comfort
- Dual density foam core with sloped heel zone to relieve pressure in sensitive foot region
- Firm perimeter border Allows for easier transfers and a firm supportive edge to meet all bed entrapment guidelines
- Recovery-5® cover ensures protection from fluid while still allowing maximum immersion with its stretch capabilities

### SPECIFICATIONS:

## Mattresses

### EQUALIZEAIRE AIR THERAPY SURFACE

This versatile mattress operates as either a dynamic selfadjusting non-powered mattress, or with the optional pump, as an alternating pressure-powered mattress. Twelve 5" air cells dynamically adjust to the patient profile. Includes six anatomically designed pressure relief zones and a second layer of hi-resiliency foam with air channels to help reduce heat and moisture buildup while absorbing pressure on bony prominences. In the non-powered mode, the EqualizeAire is indicated for prevention through Stage II pressure ulcers. With the addition of an optional control unit and based on individual patient assessment, the EqualizeAire can be used for the treatment of uncomplicated Stage III or IV pressure ulcers. The chemical resistant ARMORGUARD cover maximizes the life of the mattress cover. Surrounding firm perimeter provides stability during patient care and contributes to patient safety by eliminating gaps between frames and siderails. Weight Capacity 500 lbs. Warranty of 5 years on the air cells and 1 year on the cover

### MATTRESS FEATURES AND BENEFITS:

- Gel-infused viscoelastic memory foam top layer for added comfort and pressure redistribution
- Second layer of hi-resiliency foam has air channels to help reduce heat and moisture buildup while relieving pressure on bony prominences
- Chemical-resistant ArmorGuard cover maximizes the life of the mattress cover
- Six anatomically designed zones provide pressure relief
- Twelve 5" air cells dynamically adjust to patient profile
- Optional pump can be added for alternating pressure therapy.

### SPECIFICATIONS

OVER-ALL LENGTH - 80"

OVER-ALL WIDTH - 35"

THICKNESS - 7"

### OPTIONAL PUMP FEATURES AND BENEFITS:

- Pump is designed to add alternating therapy to EqualizeAire Plus mattresses to help prevent pressure injuries through stage 4
- HEPA filter included

Optional Pump SPFEQAIR-PMF

**PRIMA-GEL ELITE GEL THERAPEUTIC SURFACE**

The Prima-Gel Elite combines the comfort and pressure reduction of a foam therapeutic surface with the pressure relief and temperature regulation of gel. In the critical torso section of the Prima-Gel Elite we incorporate a larger and deeper honeycomb gel design to provide maximum pressure relief and temperature control for Stage I-IV pressure ulcers. The sensitive heel section of the Prima-Gel Elite is covered with a 3/4" pillow top gel honeycomb topper to deliver unparalleled comfort and wound prevention. The gel topper distributes the pressure more evenly over these regions resulting in better pressure interfaces. The honeycomb design of the gel allows for better temperature control around the sensitive pressure areas of the body. The Prima-Gel Elite has an incorporated high density foam perimeter to aid in transfers as well as to prevent bed entrapment. The special Recovery-5® Stretch cover provides fluid protection as well as a softer feel and stretch compared to regular nylon covers.

- Full Torso Section large honeycomb gel pad for maximum pressure relief, comfort and temperature control in critical pressure area of the mattress
- 3/4" pillow top gel honeycomb comfort topper in foot section provides immersion for pressure reduction as well as increased comfort
- Dual density foam core with sloped heel zone to relieve pressure in sensitive foot region
- Firm perimeter border Allows for easier transfers and a firm supportive edge to meet all bed entrapment guidelines
- Recovery-5® cover ensures protection from fluid while still allowing maximum immersion with its stretch capabilities

Shaker paneling on door and drawer fronts and detailed edges, imitate the elegance of real wood cabinetry. Our vinyl wrap construction uses a unique thermal fusion process to ensure durability in the long-term care environment. All cabinets come standard with two front glides and two rear casters to make the cabinets easy to level and to manoeuvre. Backs are vented to allow for air circulation within the cabinets. Available in a number of different wood finishes and handle options (see colour choice and options section).

## Upholstery Options

### VINYL UPHOLSTERY COVERINGS

A variety of different vinyl upholstery coverings are available to choose from. Vinyl provides ease of cleaning with new “textured” and patterned looks. Choose from major manufacturer’s patterns and colours such as Douglass, Morbern and Momentum. Vinyls meet all flame and fire retardency standards. Contact your sales representative for available patterns and colours to choose from.

### PRINTED CRYPTON UPHOLSTERY COVERINGS

A variety of different patterns and colours are available and printed on to a Crypton base cloth. Crypton’s® patented technology is engineered into the fabric, encapsulating every fibre with stain, odour, and bacteria resistance. The breathable moisture barrier is permanently integrated into the fabric, ensuring a complete and proven performance system from the fibres up. Contact your sales representative for available patterns and colours to choose from.

### WOVEN CRYPTON UPHOLSTERY COVERINGS

A wide variety of woven textile patterns and colours are available in two different grade/price levels. Crypton’s® patented technology is engineered into the fabric, encapsulating every fibre with stain, odour, and bacteria resistance. The breathable moisture barrier is permanently integrated into the fabric, ensuring a complete and proven performance system from the fibres up. Choose from major manufacturer’s patterns and colours such as Coral, Douglass and Momentum. Woven Cryptons meet all flame and fire retardency standards. Contact your sales representative for available patterns and colours to choose from.

## Four Leg Bases

### #508 FAUX WOOD GRAIN TAPERED METAL TABLE LEGS

Our four legged metal tapered leg bases with faux wood grain finish are durable, lightweight and sturdy. The highly scratch resistant finish is applied using a 3 step heat transfer process ensuring the look and feel of wood. Legs are securely fastened with a metal corner bracket to the base apron. Standard height is 28" but custom heights are available upon request. Bases will accommodate square tops sizes 36"x36", 38"x38", 40"x40", 42"x42", 48"x48" and also 48" round. All legs have a height adjustable glide on the bottom for levelling the table. Available in 6 different wood grain finishes that will not chip, see page 69 for options.

### #500 ROUND METAL TABLE LEGS

The #500 round legs are a 2.5" diameter, 14g steel leg. All legs have adjustable glides on the bottom to help with levelling. Each leg has a flat metal mounting plate at the top of the leg to allow for easy mounting to any table top. Standard height is 28" but custom heights are available upon request. Choose from any of our standard epoxy coatings for the finishing on the legs. Legs are available with optional 3" adjustable height cup glides and also available with optional casters on all four legs or just two legs.

### #504 WOOD TABLE LEGS WITH APRON

Our four legged bases are made of solid hardwoods and finished in any of our standard wood finishes. Legs are securely fastened with a metal corner bracket to the base apron. Base aprons are available with a cut out to allow chair arms to access under the table. Standard height is 28" but custom heights are available upon request. Bases will accommodate square tops sizes 36"x36", 38"x38", 40"x40", 42"x42", 48"x48" and also 48" round. All legs have a height adjustable glide on the bottom for levelling the table.

## Specialty Tables

### ADAPTIVE DINING TABLE

Our rehab Adaptive Table is an innovative product with custom settings for each of the 4 seat locations. Each location is height adjustable from 27" to 37". The base is made from rugged tubular steel coated with static polyester. Table tops are 1" waterproof, flame resistant, thermofoil seamless tops with raised spill-proof edges.. Table comes with one transport wheel on the end of one leg for easy transporting by tipping the table up slightly on to that wheel and rolling the table. Table has Revolving Centre Condiment Tray, Adjustable Slide Out Depth Adjustment on Sectional Trays and Weight Compensating Column Springs. Bases are baked on brown epoxy finish for long lasting durability. Available in Walnut (shown) or Natural Maple laminates.

### SPECIFICATIONS

#### Frame:

- Twelve gauge (.100") steel structure
- Integrated transport wheel
- Non-marking, adjustable levelling feet

#### Tabletops:

- 1" tabletops covered with 1/16" quality laminate
- 2mm matching laminate, heat-sealed, vinyl edge finish

#### Dimensions:

- Overall 49" x 49"
- Add 7" per panel if extended
- Approximate weight 150lbs (68kg)
- Individual height adjustable tabletops from 27" to 37"
- Each tabletop panel 24.5" x 24.5"

# Base and Top Options

## FLIP TOP OPTION

The flip top option allows the top to be flipped up vertically in order to provide extra space for storing the table. This option is available on any of the 100 series of tables. Add "FT" after the base number in the table code number to add the Flip Top option on the table.

## SELF LEVELLING GLIDE OPTION

All tables come standard with a nylon, manually adjustable glide. The self levelling glide is available as an option on all the 100 and 500 series tables. This glide will automatically adjust to any unlevel surfaces without having to bend down and adjust the glide. Perfect for eliminating wobbly tables every time they are moved to a different location on the floor. Add "SL" after the base number in the table code number to add the Self Levelling Glide option on the table.

## CASTER OPTION

Casters can be added to any of the 100 or 500 series tables. Tables can have all four casters (4C) or two casters/two glides (CG) depending on your preference. Add "4C" or "CG" after the base number in the table code number to add the caster options on the table.

## CUSTOM INLAY TOPS

Tops can be customized to have inlay designs such as the games inlay shown. Custom laminate designs with inlay poly resin seams can also be done.

## DROP LEAF EXTENSION

This 10" x 20" drop leaf extension is available on the 42x42 or 48x48 square table tops as an option. The drop leaf flips out and locks in to place for residents in wheelchairs to have a table platform close to them and then neatly folds and tucks under the table when not in use. Two drop leaves per table mounted on opposite sides of the table so that the two other sides of the table can be used for normal seating.

## Top Shapes and Sizes

### SQUARE TOPS

Tops are 1 1/8" thick, 45lb particle board core with a high pressure laminate surface in any of the laminate manufacturer's standard laminates and a phenolic balance sheet on the underside. All corners are 1" radius (other radius sizes available if requested). Tops are available in 24"x24", 30"x30", 32"x32", 36"x36", 38"x38", 40"x40", 42"x42" and 48"x48" and with any of the standard edge details.

### ROUND TOPS

Tops are 1 1/8" thick, 45lb particle board core with a high pressure laminate surface in any of the laminate manufacturer's standard laminates and a phenolic balance sheet on the underside. Tops are available in 24", 30", 32", 36", 38", 40", 42" and 48" round and with any of the standard edge details.

### RECTANGULAR TOPS

Tops are 1 1/8" thick, 45lb particle board core with a high pressure laminate surface in any of the laminate manufacturer's standard laminates and a phenolic balance sheet on the underside. All corners are 1" radius (other radius sizes available if requested). Tops are available in 24"x30", 24"x36", 30"x36", 30"x42", 30"x48", 30"x60", 30"x72", 30"x84", 30"x96", 36"x48", 36"x60", 36"x72", 36"x84" and 36"x96" with any of the standard edge details.

### RADIUS SQUARE TOPS

Tops are 1 1/8" thick, 45lb particle board core with a high pressure laminate surface in any of the laminate manufacturer's standard laminates and a phenolic balance sheet on the underside. Tops are available in 36"x36"/42"x42", 38"x38"/44"x44" and 42"x42"/48"x48" sizes with any of the standard edge details. Use the larger of the two dimensions with "RS" at the end of it as the code number for the top. ie...the 36" x 36"/42" x 42" Radius Square top would be could "4242RS"

TABLE CODE NUMBER FORMULA

|        |   |        |   |         |   |          |   |           |   |                |
|--------|---|--------|---|---------|---|----------|---|-----------|---|----------------|
| SPF    | + | 100    | + | FT      | + | 4242     | + | PV        | = | SPF100FT4242PV |
| Prefix |   | Base # |   | Options |   | Top Size |   | Edge Type |   | Table Code #   |

## PVC EDGE (PV)

1 1/8" x 1/4" T-mold PVC edge provides a protective edging on any table. Available in any of the standard edge/base colours. Use "PV" as the code for this edge when creating your table code number.

## PVC BULLNOSE EDGE (PB)

1 1/8" x 3/4" T-mold PVC edge provides a protective edging on any table. Available in any of the standard edge/base colours. Use "PB" as the code for this edge when creating your table code number.

## WOOD BULLNOSE EDGE (WB)

Solid wood, bullnosed edge is 1"x1" in size and is available in solid oak or maple. Edge can be stained to match any wood finish. Use "WB" as the code for this edge when creating your table code number.

## POLY RESIN EDGE (PR)

Special formulated poly resin is poured in to an edge mold as a liquid and then solidifies to become a solid, seamless one piece edge. Colour is solid all the way through the edge so any scratches can be sanded smooth with steel wool and shined back to the original beauty with Armour-all. Use "PR" as the code for this edge when creating your table code number.

## RAISED SPILL PROOF POLY RESIN EDGE (RS)

Same qualities as the poly resin edge above except built up on the edge to prevent any liquids that are spilled from rolling off the table. Use "RS" as the code for this edge when creating your table code number.

## Lifts

### GENEVA RL8 COMBI CHAIR LIFT

The RL8 provides a dignified solution for residents requiring assistance getting in and out of recumbent bathtubs. The RL8 Combi-Lift is for residents that desire or need to be in a seated position.

The wide and padded seat surface, ergonomically designed safety arm supports, and safety belts ensures a comfortable and secure bathing experience for the resident. The seat surfaces are made of a soft and durable material that is non-water absorbent, making it easy to clean and maintain.

The foot-operated raise and lower function control is strategically located on the rear of the bath lift, allowing the caregiver the use of both hands to aid the resident. The belt-driven raise and lower function is smooth and quiet, and the large hospital grade castors make moving the RL8 effortless. Manufactured with the highest quality materials, including stainless steel components, the RL8 will provide years of service and low cost of ownership. Optional scale with digital read-out is available.

Low and narrow chassis that easily maneuvers under beds and bathtubs.

Foot activated emergency stop button and magnetic charger port.

Commode Seat for perineum cleaning/toileting, includes lid to cover opening.

Comfortable back rest made of a soft and durable material that is easy to clean.

## Tubs

### GENEVA RS8 SUPINE BATHING TUB

The Geneva RS8 is designed to bathe highly dependent residents safely and comfortably and is compatible with a wide range of transport and lifting devices. The key-hole shape enhances patient comfort with extra room for the shoulders and arms, plus allows the caregiver closer and greater access to bathe the resident. The height is raised or lowered at the touch of a button and allows the caregiver to work at the proper height, thus eliminating back strain. The optional Auto-fill eliminates waiting and/or observation time when pre-filling the bathtub to a pre-set level.

The smooth and soft lines of the Geneva RS8 will enhance the look of your bathing area and allow for effortless maintenance and cleaning. Standard features include adjustable height, Air Spa Micro-Bubble system for therapeutic relief without disinfection concerns, thermostatic mixing valve with anti-scald protection, battery backup, built-in disinfection system and hand held shower wand. 5 year warranty on shell & finish, 3 years on moving parts.

#### STANDARD FEATURES

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Battery Back-up in case of power failures.
- Built-in Disinfection System that is the most time-efficient solution for disinfection of the bath's external surfaces and minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub-fill and shower wand temperatures.
- 3/4" Supply Lines constructed of stainless steel.

## VICTORIA RG9 FREESTANDING BATHING TUB

The RG9 Victoria is a freestanding tub that allows the caregiver 360° unobstructed access to the resident. The low threshold and wide side-entry door allows easy access for residents with various degrees of mobility and the built-in contoured seat allows the resident to sit comfortably and safely in a slightly reclined position. For your dependent residents, the RG9 Victoria is specifically designed for use with the RL9 Bath Lift, which provides seamless transfers from bed-to-bath in a comfortable and safe seated position. The sleek exterior design of the RG9 Victoria bathing system will give your bathing area an upscale look.

Caregivers will enjoy the RG9 Victoria for its ease of use and the improved quality of care they can provide the resident. Featuring a full range of standard and optional features, the RG9 Victoria bathing system is designed to enhance the bathing experience for the resident.

### STANDARD FEATURES

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Built-in Disinfection System that is the most time-efficient solution for disinfection of the bath's external surfaces and minimizes the risk of cross-infection.

### ATLANTIC RR7-II RECLINING BATHING TUB

The RR7-II Atlantic is designed for healthcare facilities looking for a more time efficient and labor-saving bathing solution. The RR7-II Atlantic has a unique tilting function, which gives residents with challenging conditions to recline in a contoured seat and quickly become immersed in warm water. At only 24 gallons to pre-fill the foot well, water usage and the associated costs are greatly reduced. The most unique attribute of the Atlantic is its ability to raise and tilt the resident while bathing. The water in the foot pool rises to warm and clean as it redistributes the bath water over the body. The side door raises up out of the way to allow safe, easy access for all your residents. This particular tub is versatile enough to allow ambulatory residents to step in, as well as providing safe access to those using standing or walking aides and even those in wheelchairs.

The Atlantic has an anti-scald mixing valve with a and an optional auto fill feature that quickly fills the tub at a rate of 15 gallons per minute. Choose from right or left swing-up door with Rane's trademark KeyLock™ mechanism that eliminates leaks. 5 year warranty on shell & finish, 3 years on moving parts.

#### STANDARD FEATURES

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Battery Back-up in case of power failures.
- Built-in Disinfection System that is the most time-efficient solution for disinfection of the bath's external surfaces and minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub-fill and shower wand temperatures.
- 3/4" Supply Lines constructed of stainless steel.

#### SPECIFICATIONS

OVER-ALL LENGTH - 73"

WEIGHT CAPACITY (OCCUPANT)- 450 lbs, 204.5 kg

OVER-ALL WIDTH - 34"

WATER CAPACITY (OCCUPIED) - 38 gallons, 143.8 L

# Bedpan Flusher and Disinfector

## DEKO 190 BEDPAN FLUSHER AND DISINFECTOR

The DEKO 190 is designed and constructed to meet the standard performance and design requirements stated in ISO EN 15883-1 Washer-disinfectors - Part 1 and Part 3: Requirements and tests for washer-disinfectors employing thermal disinfection for human waste containers. Thanks to the unique, patented fresh water recirculation principle of the DEKO 190, the machine has a minimal need for energy and water in relation to the capacity and efficacy of the adjustable process cycles. Also the thermal disinfection of outlet, water tank and pipework in every cycle is of great importance and only available in the DEKO 190. The DEKO 190 is intended for emptying, flushing, cleaning and thermal disinfection of reusable waste containers. Gross wash chamber volume - 72L.

Comes standard with a holder for 2 bedpans, 4 urine bottle nozzles, fold down wash shelf, detergent pump, and detergent container housing.

### FEATURES

- 3 rotating plus 7 fixed wash jets
- Automatic detergent dosage
- Indication for insufficient volume of detergent to complete cycle
- Load temperature protection and over temperature cut-outs
- Automatic foam and washing water pressure control system
- Sound and heat insulated
- Vapour Condenser
- Height adjustable feet
- Powerful circulation water pump, output 600 L/min
- Cycle Phase Indication
- Display indicates cycle completion
- Fault indication and coded information
- Access to regulation of critical process parameter values with authorized person entry code only
- Component test mode for preventative maintenance

### SPECIFICATIONS

- WIDTH - 23.6" (600 mm)
- DEPTH - 24.8" (630 mm)
- HEIGHT - 57.5" - 63.4" (1460 - 1610 mm)
- CHAMBER WIDTH - 18.9" (480 mm)
- CHAMBER DEPTH - 14.2" (360 mm)
- CHAMBER HEIGHT - 25.2" (640 mm)

## Standard Wood & Faux Wood Finishes

### STANDARD\* WOOD STAIN CHOICES

*Warm Walnut*

*Spiced Cherry*

*Millwork Cherry*

*Oak*

*Natural Maple*

\* Custom stain finishes are available for all wood pieces provided a sample is provided to match and also a minimum order level is met. Contact your sales representative for more details.

### FAUX WOOD GRAIN METAL CHAIR & TABLE BASE FINISHES

*F10 - Dark Walnut*

*24 - Hickory*

*27 - Mid Cherry*

*D12 - Harvest Maple*

*20 - Light Oak*

*Natural Maple*

**Note:** Actual colour may vary from picture shown due to printing limitations. Please request an actual sample if needed.

### ALUMINUM FRAME CHAIR OPTIONS

*Caster Options*

*Webbed Seat*

*Metal Glides*

*Nylon Glides*

### NYLON GLIDES

Nylon glides are the standard glide if no glide is specified. They work well on all types of surfaces.

### METAL GLIDES

Metal glides are for use on carpeted surfaces only

### FELT GLIDES

Felt glides are for use on vinyl or ceramic surfaces and eliminate the vibration noise that occurs when using regular glides. Do not use on carpeted surfaces. Felt does wear out quicker than nylon so the glides do need to be replaced more often.

### FRONT CASTER OPTION

Casters are available for most wood frame chairs (see seating pages for exact models they are available on.) The casters are installed on the two front legs and regular glides are used on the back legs. Chair is still stable when someone is sitting in it but is a lot easier to move when there is no weight on the legs.

## Seating Specifications

### WOOD SEATING SPECIFICATIONS

- 1.0 Frame: All upholstered (non-exposed) frame lumber shall be sound grade dried (7%), mixed hardwood for strength and dimensional stability. All exposed wood shall be milled from kiln dried hardwood, premium grade selected free of visual and structural defects, beechwood or alternate hardwood.
- 2.0 Frame Assembly: All joints are mortise and tenoned, hydraulically assembled, then glued and pinned for extra strength. Corner blocks are fitted to leg and rail and attached with low root screws and glue. All exposed parts are machined round and are sanded to a smooth finish.
- 3.0 Standard Wood Finish Process: All exposed hardwood frames are finish with a catalyzed lacquer using special environmentally friendly, water based process and offers superior resistance to abrasives and chemicals commonly found in a healthcare/hospitality environment. This finish is highly resistant to hot/cold checking and successfully tested to temperature ranges between 120 deg. F to -5 deg. F.
- 4.0 Foam: Upholstery and cushion foam shall be high resiliency (HR) of varying density and flame/fire retardant. All foam, at a minimum, shall meet California Technical Bulletin 117 (TB-117) for flame and fire retardancy. Foam cushioning is selected for comfort and durability.
- 5.0 Inspection: The entire frame and upholstery shall be inspected during the Manufacturing process and again after final assembly. Tailoring shall be neat, trim and applied in a professional manner. All legs will be levelled on our automated levelling machine.

### FAUX WOODGRAIN SEATING SPECIFICATIONS

- 1.0 Sturdy lightweight aluminum frame, all welded construction
- 2.0 Meets CAL TB 117 fire rating
- 3.0 Finish will not chip, even when stacked
- 4.0 Nylon bootied swivel glides
- 5.0 High density molded foam cushions

## CASEGOOD SPECIFICATIONS

- 1.0 Top Construction: One piece 3D laminate Thermovinyl wrapped over top and 4 edges, with radius corners and edges. Contract grade MDF core with minimum density of 45 lbs. Backer, white melamine
- 2.0 End Panel Construction: TFL (Thermally Fused Low-pressure laminate/ melamine) panel with contract grade particle board, 45 lbs. minimum density. Edges are banded with PVC to seal all exposed core and to prevent moisture absorption.
- 3.0 Drawer Front and Kick Plate Construction: One piece 3D laminate Thermovinyl wrapped over drawer faces, door faces and kick plate with Contract Grade MDF, 45 lbs. minimum density core.
- 4.0 Drawer Construction: (1) Drawer boxes-four-sided, double dowelled, glued, and screwed jointed with a recessed 1/8" fiberboard bottom. Each box shall be vinyl wrapped and moisture sealed. Bottom in box will be glued and stapled to drawer box.( 2 ) With epoxy coated metal glides, drawer bottom and back are 1/2" thick white melamine.
- 5.0 Doors: Soft closed European hinges used to prevent sudden slamming noise with varying degrees of swing dependent upon the case.
- 6.0 Backs : (Bedside cabinet and Dresser) Full 3/4" thick white melamine for weight counter balance.  
(Wardrobe)All shall have a 3/4" thick top rail that allows for installation to wall and combo of 3/4" and 1/8" thick back for rigidity.
- 7.0 Rear Casters and Front Glides: All units shall have two rear nylon casters for ease of mobility and two front adjustable height glides for unit levelling.
- 8.0 All units are vented in the back to assist in removing moisture and odors.
- 9.0 All edges and corners are radius or softened to prevent serious injuries In case of a fall and also premature wear and tear.
- 10.0 All tops, drawers, doors and kick plate can be easily replaced in the field.

## Table Specifications

### TABLE SPECIFICATIONS

1. Wood Bases: All hardwood shall be kiln dried solid lumber, premium grade selected free of visual and structural defects, species as specified per product. Bases come standard with adjustable height nylon glides for easy levelling of the table.
2. Metal Bases: All steel bases are 14g to 16g steel with all welds ground smooth and polished to a flawless finish. Steel is coated with a baked on powder epoxy coating in a choice of colours. All cast iron bases have a die cast bottom section with a 16g steel column and finished in a black epoxy coating. Bases come standard with adjustable height nylon glides for easy levelling of the table.
3. Top Construction: High Pressure laminate surface as specified with a contract grade particle core with minimum density of 45 lbs and a phenolic balance sheet on the underside. Edges to be pvc, wood, or poly resin as specified per product.
4. Standard Wood Finish Process: Standard finish shall be comprised of a high solid (over 40%), catalyzed, conversation lacquer offering superior resistance to abrasives and chemicals commonly found in a healthcare/hospitality environment. This material must be highly resistant to hot/cold checking and successfully tested to temperature ranges between 120 deg. F to -5 deg. F.

### WARRANTY

The original purchaser of Specialty furniture is protected against defective workmanship and components for a period of five years from the date of purchase. This warranty does not cover upholstery coverings or table laminates unless the claim is due to poor workmanship in application. This warranty does not cover transportation costs to and from the factory/repair depot. Specialty Furniture will replace or repair defective furniture at our option free of charge. In no event shall liability under this warranty exceed the original purchase price of furniture. No credit for repairs will be allowed without specific written authorization. This warranty does not apply to furniture damaged by accident, abuse, neglect, or misuse; unauthorized repairs; or freight damage.

## Service Programs

### ANNUAL BED & MATTRESS PREVENTATIVE MAINTENANCE PROGRAM

Our annual Preventative Maintenance Program for Beds & Mattresses includes:

- Testing of all bed functions
- Inspection of all wiring
- Check to ensure all reinforcements, nuts, bolts, and screws are securely fastened and in place
- Testing of hand control functions
- Inspection of casters and brakes
- Lubrication and cleaning of all gears and pivot points
- Check mattress covers for wear and rips
- Testing of all air control units and air surfaces attached to the bed.
- Provision of a comprehensive report by bed, serial number and room number of all inspected beds
- Consultation with staff if parts and repair services are required

### ANNUAL BED ENTRAPMENT PROGRAM

Our annual Bed Entrapment Program includes:

- Testing of all bed systems to Health Canada's bed entrapment guidelines
- Testing conducted using the B4000 Bed System Measuring device.
- Summary report of testing results provided in Excel format

### ANNUAL MOBILE/CEILING LIFT INSPECTION AND MAINTENANCE

Our Annual Inspection and Maintenance program for Mobile and Ceiling Lifts includes:

- Weight testing at 100% of Safe Working Load
- Inspection of lifting straps, actuators, limit switches, retaining clips, plastic plugs, and end covers
- Check to ensure all hardware is securely fastened and in place
- Testing of battery and charger output
- Testing of hand control functions
- Inspection of all wiring harnesses, emergency lowering function, casters, and brakes
- Lubrication of all gears and pivot points
- Inspection of all slings for wear and rips
- Testing of all ceiling track mounting brackets, hardware and end stops
- Inspection and adjustment of mounting brackets, lock splits and end stop fasteners for ceiling tracks
- Inspection and test charging for constant or end rail units on ceiling tracks
- Inspection of all ceiling track traverse trollies, gates, switch tracks and turntables
- Weight testing of all track "drop" locations at 100 percent of safe working load on ceiling tracks
